 Non-skid rubber matting enhances safe operation

#VP82010

20 ton rated per pair for heavy-duty trucks
 Handles tyres with up to 10" tread widths
 Telescopic T-handle extends & lifts up to expose
 wheels for easy manoeuverability. T-handle
 retracts for easy storage
 Wheel diameter: 132mm
 Product size: 1160x343x242mm
 Non-skid rubber matting enhances safe operation

Fork Lift Attachment

#WH7499

Capacities:

To suit 1 ton ute/truck capacity: 600kg

To suit 2 ton ute/truck capacity: 1000kg

Swings 180°

Operated by 6000kg, 12 Volt Hoist

The unit has a pair of forks like a conventional fork lift.

It has a socket which transforms the device into a crane lifting device.

It also has a platform attachment which is easily fixed onto the forks.

The unit is a one man lifting & loading device.

It is easy to operate with no effort required.

Work & Occupational Safety: The legislation now limits the permissible load to 25kg per person.

This is a one person operating device which will lift 600kg onto a 1 ton flat bed tray & 1000kg on 2 ton & above flat bed tray.

It can be used for larger more awkward products such as water tanks, spas, white goods etc and a whole host of other items unliftable by an individual person.

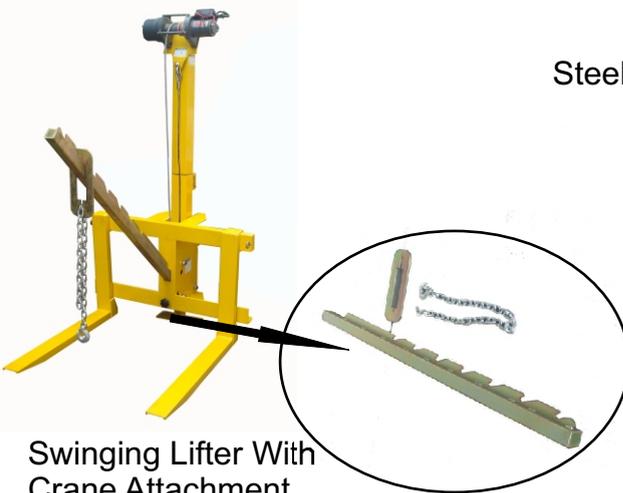

Crane Attachment #WH7499CR

Steel Platform #WH7499P

Can be turned around on ute

Swinging Lifter With Crane Attachment
