

# Jump Starts

## Automotive Products

### #VP8900

Front

Heavy duty 12V portable jumpstart system, material: PP plastic  
 - Built-in 12V 17Ah sealed-lead-acid rechargeable battery,  
 Heavy duty CU booster cable, 60cm length  
 900A peak current, 400A starting current,  
 Built-in 260psi air compressor pressure gauge, on/off switch & 3pcs  
 air nozzle adaptors  
 12V 3.6W working lights, one DC 12V output socket  
 12V 15A with automatic circuit overload protection, automatic cut off to  
 prevent overcharging  
 Voltmetre show the battery level, one charging indicator LED light  
 Included AC/DC charging adaptor & 12V DC power cord  
 Length of wire: 0.6m, 400 crank amps

Back

### #VP8920

Front

Heavy duty 12V portable jumpstart system, material: PP plastic  
 Built-in 12V 17Ah sealed-lead-acid rechargeable battery,  
 Heavy duty CU booster cable with ON/OFF safety switch, 60cm length  
 900A peak current, 400A starting current,  
 Built-in 260psi air compressor pressure gauge, on/off switch & 3pcs ai  
 nozzle adaptors  
 12V 3.6W working lights, one DC 12V output socket  
 12V 15A with automatic circuit overload protection, automatic cut off to  
 prevent overcharging  
 Voltmetre show the battery level, one charging indicator LED light  
 Included AC/DC charging adaptor & 12V DC power cord  
 Length of wire: 0.6m, 400 crank amps

### #VP8930

Front

Heavy duty 12V portable jumpstart system, material: PP plastic  
 Built-in 12V 38Ah sealed-lead-acid rechargeable battery,  
 Heavy duty CU booster cable with ON/OFF safety switch, 120cm length  
 1500A peak current, 600A starting current,  
 12V 3.6W working light, one DC 12V output socket  
 12V 15A with automatic circuit overload protection, automatic cut off to  
 prevent overcharging  
 Voltmetre show the battery level, one charging indicator LED light  
 Included AC/DC charging adaptor & 12V DC power cord  
 Length of wire: 1.2m, 400 crank amps

Back

### #VP8940

Front

Heavy duty 12 & 24V portable jumpstart system, material: PP plastic  
 Built-in 2pcs 12V 17Ah sealed-lead-acid rechargeable battery, 12V/24V on/off switch  
 12V/34AH DC 1400A peak current, 500A starting current,  
 24V/17AH DC 900A peak current 400A starting current, HD CU booster cable  
 120cm length  
 12V 3.6W working light, one DC 12V output socket  
 12V 15A with automatic circuit overload protection, automatic cut off to  
 prevent overcharging  
 Voltmetre show the battery level, one charging indicator LED light  
 Included AC/DC charging adaptor & 12V DC power cord  
 Length of wire: 1.2m

### #VP8899

## NEW

#### Jump Starter With Air Compressor

300psi compressor; Working lights  
 12V DC power supply; AC/DC adaptors  
 Inflation adaptors; Replaceable fuses  
 Clamp storage holders; HD handle with metal saw tooth clamps  
 2 x bulb working lights & emergency flash lights  
 3 x 12V DC cigarette sockets for output power supply  
 On/off switch; leds battery strength indication  
 500 crank amps
